**Spacious And Beautifully Updated On Large Lot**

Beautifully updated with spacious living room and kitchen.

The beautifully remodeled spacious kitchen features plentiful stained wood, recessed panel cabinets, and a modern stainless steel gas range. The high stone tile (travertine) backsplash is a perfect complement to the veined polished granite counter tops. A light tan tile floor complements the backsplash creating a thoroughly delightful area to prepare meals.

An oak floor, recessed lighting, and contemporary dry-stacked stone fireplace create a delightful ambiance in the spacious living room for entertaining or spending time with your family. The formal dining room is in front of the kitchen with a large passageway open to the living room.

Behind the kitchen, a family room provides an area for family activities separate from the living room.

Three bedrooms are downstairs each with an oak floor and recessed lighting. The master suite and an office (or 5th bedroom) are upstairs.
