3BR/2BA | 1,182 sf | Lot 6,098 sf

This wonderfully updated home is located within bicycling or even walking distance of many high tech employers yet is located on a peaceful street with no through traffic.

The front landscaping uses many Santa Clara Water District low water dependent plants.

The comfortable living room is open to the dining area and to the kitchen through a pass through opening to the breakfast bar. The living room opens up to the back patio through dual sliding doors and dual door sized glass panels.

The remodeled kitchen features beautiful high gloss white cabinets above the Caesar stone countertops and contrasting dark stained wood cabinets below. Beautiful high end stainless steel appliances, blue and grey tile back splash and many hidden features such as copper pipes make the remodel beautiful and thorough.
