

470 Ruthven Ave, Palo Alto 94301

New | 4BR/3.5BA | 2,617 sf | 7,000 sf lot

This beautiful home, built by a longtime local builder/owner, features a spectacular kitchen which is open to an informal dining area and has views of the expansive backyard.

This home has a formal dining room adjacent to the kitchen and connected to the formal living room by an arched passageway.

Windows throughout the house are trimmed with stained wood molding. Floors are either gleaming hardwood or stone tiles.

Consistent attention to details makes this home especially luxurious. Located on a two block long street, with a 7,000 sf lot, a short walk from downtown, makes this home a rare find.
