

The family room is sure to be a favorite with glass doors and windows surrounding the brick fireplace. Oak floors and earth toned walls help build the warm contemporary feel.

Both the family room and dining room have glass paned doors leading out to the large back patio. Outdoor enjoyment and entertaining is natural.

The wood trimmed bay window and oak floor of the formal living room, soft earth toned walls, create a warm inviting room for guests.

The spacious master suite has plentiful room for everything you could desire. Space for reading or a study, a large walk-in closet, and an en-suite bath with double sink vanity, tub set in a pedestal, and a walk-in shower.

Two of the upstairs bedrooms have east facing glass doors leading out to the small balcony. The two other upstairs bedrooms have small high windows on the west facing wall to minimize glare and heat from afternoon sun. Easy to clean wood floors are in all bedrooms.
