

The spacious living-dining room provides you with great flexibility. A sliding glass door leads out to the backyard. A 3/4 high wall separates the room from the hallway and makes the room feel even more open and spacious.

The huge backyard is a rare find. Whether you want to expand the house or have a park like garden, it provides you with very hard to find space.

The ample sized bedrooms have beautiful, easy to clean hardwood floors. They are separated from the public areas.

Bedroom 3 has a northeast facing corner window, bedroom 2 has a south facing window looking out to the backyard and the master bedroom has an east facing window.

The front door faces east and is near the northeast corner of the house. The east side of the house has a large side yard providing privacy for the master suite and room to add a patio off the master suite.
