

The modern kitchen features excellent stainless steel appliances: gas range, microwave over range, dishwasher, and side by side refrigerator. Granite counter tops, beautiful wood cabinets, recessed lighting a pendant lit island breakfast bar, and wood floors create a warm contemporary ambience.

The open adjacent dining and living area provides both flexibility and promotes group involvement for both family and entertainment.

Each of the three bedrooms has its own bath en-suite. The top-floor master bedroom has ample space for a reading or work area. Multiple windows make the room open and cheerful. Carpeted floors, walk-in closet, and shower over tub are additional features.

The second bedroom, also on the top floor, is quite spacious and has a bath en-suite with a large glass doored walk-in shower.

The third bedroom is located on the bottom floor, looks out over a small private patio, and has a half-bath en-suite.
