

569 Waite Ave, Sunnyvale

This lovely updated home has features a modern kitchen and bath. The dining room is open to the living room and separated from the kitchen by a partial wall. The backyard has a large partially covered patio, a large well built storage shed, a lawn, and numerous mature fruit trees.

Although public records describe the home as having 3 bedrooms, one of the bedrooms was converted into the lovely dining room. Some framing and sheetrock would be needed to turn it back into a bedroom.
