Delightful Home In Residential Area, Short Bike Ride or Light Rail to Employers

This delightful home has wood and tile floors throughout. A large, white block, woodburning fireplace separates the living room from the dining room.

For low maintenance and low water usage the yards are covered with a wood chip mulch. You have ample space to create landscaping matching your dreams or whims. The backyard has a large patio, a garden workshop, trees, and a mulched landscape area.

For many people the greatest attraction is the easy access to Light Rail and many high-tech employers. Your car can sit un-used during workdays and your short commute won't make you frustrated. A short bike ride or moderate walk will get you to major Silicon Valley attractions including Great America and Levi Stadium.
