Contemporary Style, Walk to Shops

This delightful home has its own private balcony and private garage. It is within easy walking distance of shops, cafes, and parks.

The cheerful kitchen features white appliances, white cabinet doors, and a white vinyl floor having a tile design. Color is added by stained wood frames used for the cabinet frames, and light warm tinted walls and counter tops. The dining room is open to the kitchen. The kitchen flooring has been extended across it. A window looking out to the private balcony fills the dining room with natural light.

The living room opens to the front balcony through a sliding glass door and is partially open to the adjacent dining room. At the opposite end, a hallway leads to the foyer and to the bedrooms. A washer/dryer hookup is in a hallway closet around a corner keeping it out of public sight. Both bedrooms have carpeted floors, and are filled with natural light from their windows. The bedrooms have good sizes.
